

San Antonio College goes Green with GoPrint!

To reduce paper waste and rising costs, San Antonio College implements GoPrint, a print management solution that allows us to accurately track usage, allocate costs and – most importantly – reduce the amount of waste generated through printing. Over 300 educational institutions use GoPrint, and many report a significant decrease in print volumes and printers. Purchase of GoPrint was influenced by the SAC Go Green initiative that started in Spring 2007.

How it works:

- Students print normally from desktop computers, then review and choose to release their jobs at the GoPrint station located next to the printer.

- Standard print charges apply:
 - Black/white (8.5” x 11”) – \$0.10 per page
 - Color (8.5” x 11”) – \$1.00 per page; where available
 - Certain locations have large format printing; charges may increase based on size

- Print charges are handled through a print debit card, which may be purchased from cash-to-card machines located at:
 - Loftin Student Center Cyber Café
 - McCreless (MCCH) first floor hallway
 - Nursing and Allied Health Complex (NAHC) lobby
 - Student Learning Assistance Center (SLAC on 7th floor MLC)

San Antonio College GoPrint stations can be found at:

- Allied Health Lab (NAHC 338)
- Business Department Lab (AIC 307)
- Engineering and Architecture Lab (CAC 258)
- English Lab (GH 118)
- Internet Skills Center (MLC 400B)
- Loftin Student Center Cyber Café (2nd floor LSC)
- Math Lab (MCCH 124C)
- Student Learning Assistance Center (SLAC on 7th floor MLC)
- Writing Center (GH 201)

Be eco-friendly

- Use printers wisely. Think before you print.
- Carefully proof documents on the screen to catch errors before printing.
- Print and copy on both sides of paper wherever possible.
- Reduce print waste by ordering the print job based on your workstation label.
- Don't print a draft for minor revisions.
- Recycle everything, especially paper.
